

Hello and Happy Spring 2026,

We are celebrating again this spring –for so many reasons! Our biggest accomplishment is having you as a continued customer. We want to extend a huge and heartfelt thank you for making our family business grow over the years. Forty-eight years in the same business with the same name is something we are proud of. With so many options out there, we realize without customers, we have no one to share our years of knowledge and expertise with! We want you to know upfront we really appreciate you!

If you are new to us, we welcome you to our pool family too. Without new customers, we would be worried about tomorrow and are glad you are putting your trust in us to care for your family pool.

Each year I send this packet out to introduce ourselves, and share some services plans and pricing, and remind you to call to get on the opening schedule. This is always a lot of info, so please call or email with any concerns or questions. I am only a call or email away~

We are proud of our reputation as fair and honest and doing what we say we will do in a timely, fair, and friendly manner. We take pride in being one of the most experienced and steady businesses in this industry. We charge for our upper- end products and our years of experience doing this work. With God's help, we plan to continue providing great service and offering quality and tested products for years to come. Between us we have over 200 years of experience!

Little Richard himself is still fully involved in the office and shop, but not so much out in the field after putting in 46 years of hard labor. Don't ask him about all of his ailments unless you have some time! 😊 He keeps all operations in check, always up on industry changes, and making sure the younger generation knows how things should be, all while entertaining those around him. **Jeff**, my brother and Little Richard's only son, is still installing liners and covers and can fix absolutely anything pertaining to pools. He is even doing his charity work, showing our competitors how to fix covers when they run into snags.

😊 We really do help our competitors when we can and enjoy that part of the business too!

James, my husband-the Marine, is still our main service technician who will show up, fix the issue, and be gone before you even knew he was there. He loves efficiency and getting things done. **Zach** is Little Richard's grandson, and my first born. He is fully trained by Little Richard himself, and moves faster than the rest of us, and strives to please every customer in the best way possible. **Jake**, also Little Richard's grandson, is my second born. He is becoming quite a service technician and is very attentive to details and making sure the job is perfect. We are so happy he is here for another season, as he still is finishing up his business administration degree. **Abigayle** is Little Richard's granddaughter, and my youngest and only daughter. She is in college too, and should graduate this spring, but still working as the schedule demands to clean up and balance pools. **Cody** was our route tech, but for a third year in a row he will be working alongside Jeff on liners, cover installations and rework. Those are our main players, and we will have a few others to help with the spring rush. We want to make sure you know we are committed to putting excellent quality people out there working on your pool.

Now, for the upcoming swim season! **Please call or email desired opening week.** The schedule fills up fast, and it is tough to open all pools by mid-May, so call soon if you want your pool balanced and warming by that first big event.

Please be clear on whether you want a full opening which includes cleaning cover and vacuuming pool, or just a partial opening or closing to save money. All the pricing and options are available in THIS packet and on our WEBPAGE at www.littlerichardspools.com

With deep contemplation about the market and fuel prices and such, we are happy to report FOR THE THIRD --- YES THIRD year in a row, we are keeping the Prochem plan prices the same! UNREAL but we care about being here long term serving you.

If you do not use Prochem, we will bring out whatever chemicals you need for free delivery!

Fortunately, we are fully set up to manage your needs and really want to meet all your chemical demands, fix any needed repairs, find replacement products. When thinking about your pool we want to be your next thought! When looking around for pool products, and repairs, remember, we sell everything pertaining to pools! We are **absolute experts in vinyl liner installations as well as auto cover fabric replacements**, and can offer quality pumps, filters, and heaters at an affordable price. Plus, again—we sell all chemicals and **deliver them for free!**

So, if a Prochem plan is not for you, I have created some BUCKET LIST options to check out. Just select the chemicals you want delivered, and if you want us to do a professional test and balance on occasion, customize a plan to fit your needs. Any questions on the plans or bucket list items, please call. Besides Prochem, we provide other services weekly as well. We do light maintenance- backwash filter, clean out baskets and run your automatic pool cleaner for **\$40.00 weekly**. Or full maintenance- clean pool manually for up to an hour for **\$80.00 per visit**. We also have plenty robotic cleaners in stock, new salt conversion systems, natural gas heaters, and heat pumps, filters, and anything pertaining to pools.

We are still leaving a blue flag in your yard weekly on Prochem to let you know you can swim safely.

We also do Prochem on salt pools, so if you want to convert, NOW IS THE TIME!

Regardless of the way you get chlorine, either adding it manually or having a salt generator produce it in your pool, it needs chlorine to be a safe swimming environment.

If you use our opening services, we will be sending cover cleaners to you **before or after opening, as we are not storing covers or removing them from your property.**

Again, if you missed it earlier, we can do it all for you, and customize plans to meet your needs. We have quality products and over TWO HUNDRED years of combined experience between our technicians. Someone out there may be cheaper, but no one will have the experience we bring to your pool.

Call for pricing or check out our webpage too at www.littlerichardspools.com for FAQ or various pricing or new liner designs or automatic pool cover color option. **You can also get this packet and chemical pricing there if you misplace this!**

To get started on Prochem or a bucket list:

- Sign the pages to follow, where indicated and select your plan.
- If you want to pay by credit card, please use the authorization form or send a check.
- If you just have us open and close your pool, we will bill you when completed. No forms needed!

We still have plenty of the federally mandated (Department of Energy) variable speed energy efficient pool pumps in stock. Call or email me if you are ready to change over to conserve energy and money.

If you still have a balance due from 2025, that will need to be paid BEFORE opening.

2026 pricing for services and bulk chemical prices are available online. Email or call other quotes.

We really look forward to making a splash when it comes to service and making your pool a happy place,

Safe swimming, Jennifer Shaults & the Little Richard's Pools family

PRICING 2026

*******Prices are subject to change due to the ever-changing chemical market.*******

YOUR BUCKET LIST

Select the number of buckets you want delivered and if want water tested, ADD \$89.00 per visit.

JUST GETTING STARTED (I will have to order more next month)

10 wks x \$89.00 for Professional testing & application of chemicals= \$890.00

1-50 # granular chlorine= \$329.00

1-50 # soda ash= \$98.00

1-25# dry acid to lower pH = \$68.00

1 quart algaecide= \$42.50

1 quart of stain and scale remover= \$36.45

Grand total INCLUDES TAX = **\$1500.00**

GETTING YOU THROUGH IT (hope to get me through July)

20 wks x \$89.00 for Professional testing and application of chemicals= \$1780.00

2 -50# buckets of granular chlorine = \$658.00

1-50# soda ash= \$98.00

1-25# dry acid to lower pH = \$68.00

1 qt. Clarifier= \$33.50

Grand total INCLUDES TAX= **\$2693.00**

GO SALT POOL (wallet friendly)

18 wks x \$89.00 for Professional testing and application of chemicals= \$1602.00

10 bags of salt= \$165.00

1-50 # soda ash= \$98.00

2-Salt magic or pepper to keep corrosion down=\$144.00

Grand total INCLUDES TAX= **\$2036.00**

2 x 2 & 1 x 1 – WE ARE HAVING FUN (No Professional testing or balancing needed-I'm the pro)

2- 50# buckets of granular chlorine= \$658.00

2- 50# buckets of soda ash= \$196.00

1-50# bucket of dry acid to lower pH= \$129.00

1-50# bucket of sodium bicarb to raise alkalinity= \$146.00

GRAND TOTAL INCLUDES TAX= **\$1202.00**

I GOT THIS (No Professional testing or balancing needed—I'm the pro)

3-50# buckets of granular=\$987.00

1-50# soda ash to increase pH=\$98.00

1-25# dry acid to lower pH = \$68.00

1-50# bicarb to raise alkalinity=\$146.00

1 qt. Clarifier=\$33.50

1 qt. Copper Algaecide=\$42.50

1- Stain and Scale remover= \$36.45

Grand Total INCLUDES TAX= **\$1500.00**

SPRING- SUMMER- FALL – I NEED IT ALL (I will help a bit to save a few bucks)

12 wks x \$89.00 for Professional testing and application of chemicals- check every other week and I will check it in between= \$1068.00

12 wks light maintenance= \$480.00

4-50# buckets of chlorine= \$1316.00 (average usage for 24 wks)

1-50# of soda ash= \$98.00

1-50# bicarb to raise alkalinity=\$146.00

1-25# dry acid to lower pH = \$68.00

1 qt.-Clarifier= \$33.50

1 qt.- Stain and Scale= \$36.45

1 quart- Copper Algaecide=\$42.50

Grand Total INCLUDES TAX= **\$3400.00**

**Add 2 bags of DE to any plan= \$53.00 (if have DE filter)

2026 BULK CHEMS DELIVED

DELIVERY included in surrounding areas/ (add fuel surcharge of \$15.00 if outer limits)

50# Sodium DyChlor Granular Shock chlorine=\$329.00

25# Sodium DyChlor Granular Shock chlorine= \$189.00

40# TABLETS- SUPER SALE - \$178.00 -- (limited supply)

25#- 3" Tablets (TriChlor) =\$149.00

50# - 3" Tablets (TriChlor) = \$295.00

40 # Pool salt **with scale inhibitor**-per bag= \$20.50

25 #Diatomaceous Earth (D.E. powder)-per bag/or box= \$26.50

50 # Diatomaceous Earth (D.E. powder)-per bag/box= \$48.50

Salt magic/ Pepper- keep corrosiveness down on salt pools= \$72.00 for month dosage

Phos Free- per 32 ounces= \$78.50

4 – 1 Rainbow Test Kit-**with chem order**= \$34.50

Test strips – 3 –1 - Chlorine, pH, total alkalinity-**with chem order**=\$21.50

Salt test strips- 50 per bottle = \$35.50- or 10 strips= \$10.50

Email for any other chemicals at jen@littlerichardspools.com or call (316) 541-2497

All CHEMICAL PRICES SUBJECT TO CHANGE

2026 Chlorine and Salt-Fed Prochem Agreement – (ONLY NEED TO SEND BACK IF SIGNING UP FOR PROCHEM)

THIS AGREEMENT entitles me to exclusive weekly chemical treatment by Little Richard’s Pools & Spas, Inc. for my swimming pool/spa. The agreement sets out the respective rights and obligations of each party.

PROCHEM. - Prochem will provide chemicals and technicians to perfectly balance chlorine, pH, alkalinity, conditioner levels on a weekly, bi-weekly or every other week basis **per the plan selected**. Chemicals to fight off water borne biotic diseases and remove diseases causing organisms such as e-coli will be provided per the plan.

Salt fed pools- Prochem will provide chemicals and technicians to perfectly balance salt, chlorine, pH, alkalinity, and conditioner levels **per the plan agreed upon**. Prochem will provide the monthly corrosion control chemicals required to keep salt fed pool balanced. Unless pumped out or backwashed out, salt fed pools should not require weekly salt treatments to maintain chlorine levels. However, it will be necessary to maintain proper salt levels for the generator to function. Through electrolysis salt generators create CHLORINE. Chemicals to balance pH and alkalinity and stabilizer will still be needed. Chemicals to fight off water borne biotic diseases and remove diseases causing organisms such as e-coli will be provided.

PROCHEM will charge \$50.00 return trip fee if pool is not accessible during initial trip. Please have gates unlocked, and dangerous dogs put up on your designated day! Prochem will provide a blue yard flag indicating the pool was treated EACH visit. You may discard the flag or return them. Prochem technicians are trained in water chemistry, and will not fix motors, pumps, filter heaters, covers, liners, etc. while on site. IF SERVICE WORK IS REQUIRED, a separate appointment can be made through the office. PRICES ARE SUBJECT TO CHANGE DUE TO THE VOLATILE EVERYCHANGING CHEMICAL AND FUEL MARKET. If prices increase, you will be notified of an option to end the agreement or be invoiced for additional specified costs. Prochem has the right to refuse service at our discretion.

THE HOMEOWNER. - The Homeowner will follow the manufacturer’s recommendations for proper filtration time. This is of utmost importance to keep a perfectly balanced and healthy pool. Sand filters require 24 hours of filtration per day. Sand media needs changed at a minimum every 3 years. DE and cartridge filters require 12-19 hours of filtration per day.

The Homeowner will clean and backwash the filter weekly, and keep the pool brushed and vacuumed, or run the automatic pool cleaner if applicable. If desired, the Homeowner can opt to have Prochem technician do the light maintenance for additional cost. If not prearranged and the Prochem technician performs the light maintenance to maintain chemical levels, the office will bill at a rate of \$40.00 each time. The Homeowner will have automatic pool cover open on the designated day of service or understand we hold no damage liability if any occur while attempting to access pool water.

The Homeowner will call or email the office to extend treatment of their pool or spa outside the dates set out in this agreement. The Homeowner will pay all charges owed under this agreement either in full in advance, or monthly in advance or on receipt of an invoice. The Homeowner will be responsible for a \$15.00 late fee for past due accounts per month. The Homeowner will keep the pool or spa in condition that it will not LEAK.

If pool leaks, or otherwise repair pumps, motors, filters, heaters, covers, liners, valves, plumbing, etc. at the option of Prochem, this agreement shall be at an end. If the agreement ends, the amount due on the account will be paid in full at this time. The terms of the payment plan are incorporated by reference.
